High school students begin 2024 Summer Rock Internships

Thirty-six high school juniors kicked off their summer internships on Monday, June 10, as part of the 2024 Summer Rock Internship Program's Signing and Orientation event at Blackhawk Technical College's Central Campus.

Through a partnership with Blackhawk, the County of Rock, Rock County 5.0 and the Southwest Wisconsin Workforce Development Board, the 2024 Summer Rock Internship Program is a paid, six-week earn-and-learn opportunity that provides students with a structured career pathway experience.

The Summer 2024 cohort is the fifth time this program has been offered in Rock County, and this summer's program will conclude on July 26 with an intern graduation and capstone presentation day event.

Students participating in the Rock Internship Program were required to submit a resume, a letter of recommendation, and an academic and career plan. These background items, as well as other factors such as a student's identified career pathway and/or actual occupation of interest, were used to match students with their worksites.

Employers participating in this summer's program include: ANGI Energy, Angus-Young Associates, Beloit Health System, Blackhawk Technical College, CCI, Charter Next Generation, Edgerton Health, Frito-Lay, Helicopter Specialties, JP Cullen, MercyHealth, OrthoIllinois – Beloit Surgery Center, Prent Corporation, R.H. UWW at Rock County adds soccer, volleyball

The University of Wisconsin-Whitewater at Rock County continues to expand its offerings to students looking to unleash their potential in competitive athletics.

After fielding the school's first competitive volleyball team since 2018 this past fall, the Warhawks will add men's soccer in 2024. Both teams are provisional members of the National Junior College Athletic Association (NJCAA) Region 4 and will play a full schedule against other two-year institutions from around the state and region starting in August.

Samantha Soddy, women's volleyball coach and athletic director, and Jorge Tenorio, men's soccer coach, are currently hosting open gyms for students to compete against each other and get acclimated to the team atmosphere.

"It's an opportunity for them to showcase what they're capable of and stay in that mindset," Tenorio said. "They can keep improving and keep active, and that's important."

The open gyms also serve to bring together Rock students in

a community setting to promote awareness of the teams and enhance their sense of belonging through engagement.

Recruitment efforts are underway as Soddy and Tenorio work to develop connections with high school coaches, clubs, and other organizations in the area. Current students will provide the foundations of the teams as the coaches build the rosters around them.

"We want to offer students the opportunity to play at the collegiate level," Soddy said. "They can learn here, go to school for a low cost, live in a residence hall on the Whitewater campus, and go onto wherever they want — when they graduate (with their associate degree), students have a guaranteed transfer to any UW school."

Soddy started in her position eight months ago. She has put an emphasis on building the campus atmosphere by opening the gym to students during the week and allowing them to have a space to engage in recreation. Student workers have played a pivotal role in building that engagement, staffing the gym

Monday through Thursday each week.

Soddy can relate well to students — she graduated from nearby Milton High School, competed in volleyball at the NJCAA level and attended three different two-year colleges, including URock, before graduating from UW-Whitewater with a BSE in physical education.

She had experience as a coach for ROCK VBC and as an assistant coach with the girls' volleyball programs at Delavan-Darien High School and Beloit Memorial High School before being alerted to the open position at Rock County. Her father, Dave Soddy, played a key role in helping her discover her love and motivation for coaching. Both of Soddy's parents are tied to the campus — Dave previously coached volleyball at URock, while Soddy's mother, Tammy, played volleyball there.

"As soon as I stopped playing and went to the Whitewater campus, I got right into coaching," Soddy said. "I always had a passion for it. My parents coached — they met through vol-

leyball and coached me."

Tenorio, also a Milton High School graduate who attended a two-year college, worked as an assistant coach for varsity soccer at his alma mater. He was hired at URock earlier this year and is working to build out the Warhawks' roster.

"Moving forward, I'm looking forward to getting this team to be a competitive team," Tenorio said. "I want to make sure the kids are striving to push themselves and make a good name for their school."

In addition to offering the most affordable education for two-year colleges among Universities of Wisconsin schools, URock can now add the presence of intercollegiate athletics to its co-curricular offerings.

"There are a lot of students locally who didn't think of us because they want to continue to play sports in college," Tenorio said. "Now they have that opportunity in volleyball and soccer."

UW-Whitewater at Rock County will earn full NJCAA membership for the 2025-26 season.

Donors needed to protect blood supply

As World Blood Donor Day was on June 14, the American Red Cross stresses that blood and platelet donors are critically needed right now to combat a drastic shortfall in donations over the last several weeks. Donors of all blood types are needed, especially those with type O blood and donors giving platelets.

Record-breaking summer travel and severe weather conditions are expected to persist all season long, which may prevent donors from being able to give. When fewer people donate, less blood is available for hospital patients. Make a blood or platelet donation a priority this summer. Book a time to give now by visiting RedCrossBlood.org, calling 1-800-RED CROSS or by using the Red Cross Blood Donor App.

Those who come to give until June 30 will get a \$15 e-gift card to a merchant of choice. See RedCrossBlood.org/DoGood for details.

Kandu Industries given memory care grant from Milton Fund

Kandu Industries Inc., a Rock County, Wis.-based non-profit that provides programs and services to people with disabilities, recently announced the organization has received a generous award from the Milton Fund from the Community Foundation of Southern Wisconsin. This grant funding will allow elderly individuals in Kandu's adult day services program to participate in community-based outings in Milton, Wis.

Kandu's adult day services program serves "clients" (individuals with Alzheimer's, dementia, and other disabilities) through an activities-based program model, which prioritizes community involvement to promote social engagement, physical activity, and mental stimulation. The grant from the Milton Fund will allow Kandu clients to participate in integrative and inclusive community outings at local businesses, organizations, restaurants, and more.

The Milton Fund was established in 1996 as a means for current and former residents to give back to the community through charitable contributions. The fund is advised by community volunteers, ensuring the available funding supports the specific needs of the community. Many local families are feeling the strain of navigating a recent Alzheimer's diagnosis of an elderly parent, finding community resources are lacking.

Research indicates that by 2040, Rock County's population of individuals age 85+ is expected to increase by 120 percent and the number

of Rock County residents with dementia is expected to increase by 110 percent. Supportive care for individuals with Alzheimer's and other dementias will be a critical issue for many families in Wisconsin.

Kandu recognizes the substantial responsibility, considerable time commitment, and emotional strain faced by caregivers responsible for family members with disabilities or memory impairments. By providing comprehensive support services, Kandu aims to alleviate some of the burdens experienced by caregivers, like a lack of accessible transportation. With highly certified staff and ADA-accessible buses, Kandu can safely transport clients with memory impairments to engage in the community, a task that is often difficult for caregivers.

Rosemary H., the primary caregiver for her husband, who participates in Kandu's adult day services program, praises the robust monthly calendar of activities and community outings available to her husband, sharing, "Kandu has the experience and resources to keep my husband active. I wouldn't be able to get him out like they do. It's a wonderful place for clients, and for caregivers who need a bit of respite."

The grant from the Milton Fund will allow Kandu staff to plan Milton-based community outings to local restaurants like Sharla's Coffee Shop and Cone Zone and activities like equine therapy and museums. These outings enable elderly individuals to participate in social interactions, practice

daily living skills, and enjoy safe physical activities all while building confidence and independence.

"Our clients are very excited to move to our new facility in Milton this summer. This grant from the Milton Fund comes at a perfect time to provide opportunities for our elderly clients to increase familiarity with their new surroundings and create a wider local support network," said Kandu Executive Director Kathy Hansen.

Kandu is grateful for the generous support of the Milton Fund, which shares a commitment to creating a thriving community where each individual can explore their full potential. Kandu's adult day services program remains dedicated to providing compassionate, high-quality care for individuals with dementia and disabilities in southern Wisconsin.

Kandu Industries is a 501(c)(3) organization, based in Rock Co., Wis. that provides opportunities to people with disabilities and disadvantages. For more than 60 years, these work, social, and daily activities enable Kandu clients to achieve their maximum potential and enjoy the dignity of being productive citizens. Today, Kandu impacts the lives of over 200 clients along with a staff of over 100, and partners with a number of community and governmental agencies to ensure that individual choice and personal development are nurtured in the work environment as well as in other aspects of life.
